

Pioneering a new high grade Au-Ag-Cu porphyry district in Sonora, Mexico

Drill hole 26-35 hits the breccia again

- 9,375m drilled in 2025/26
- Drilling resuming at Dios Padre following technical review
- Focused on following the extension of a high-grade gold-silver breccia zone
- These breccia systems are typically large and known for producing big mines
- Multi-million ounce gold potential
- CEO Bruce Bragagnolo, proven track record in Mexico, positioned to repeat success
